Computer Labs – Spring 2019 Installed Software

Introduction

This list contains all the current software we have installed, listed alphabetically by title. Version information and locations where the software is installed are indicated. Some software is installed in multiple locations but has restrictions on concurrent uses. Software with concurrent usage restrictions are listed with the number of maximum usage in the Concurrent Use column. Please contact us for more information on our software policies and requesting software to be installed in the computer labs.

Currently Installed Software — Computer Lab Locations
